

Temperature Controlled Soldering Stations

- The temperature range can be controlled between 200°C and 450°C. The WHS40 soldering station from Weller rules out the risk of temperature shocks which can occur with conventional soldering bits
- Desired temperatures can be set precisely in such a way that you no longer have to worry about overheating sensitive areas
- Consist of power unit, soldering iron with nickel-plated tip 2,0 mm and support

Temperature Controlled Digital Soldering Stations

- The new electronically controlled soldering station WHS40D operates with a temperature range of 150°C - 450°C
- The precise soldering tip temperature shows on the digital read-out (pre-set and real value)
- This soldering station is suitable for delicate soldering tasks on temperature sensitive components
- LED to monitor the heater is integrated in the display
- The temperature adjusts via buttons
- Consist of power unit, soldering iron with longlife tip 2,0 mm and support
- Available June 2003
