

7-1/2" / 190 mm Titanium Coated Tradesman Utility Shears

Product Details

Catalog No.	CW7T
UPC	037103333247
Blade Length	2 in, 5.1 cm
Weight (Catalog)	0.400 lb, 181 g
Packaging	Carded

Features

- Heavy-duty blades feature premium grade stainless steel and are precision engineered for knife-like cutting edges
- Compact 7.5 inch design allows for easy storage and provides excellent portability
- Titanium coated blades provide corrosion resistance and are 3X harder than steel for durability and tool life
- Quick release ergonomic latch provides consistent easy operation and secures the tool in the closed and locked position for safe storage
- TPR comfort grip handles with soft-grip texture provide best-in-class comfort and control
- Touch point ergonomics optimize hand and finger contact points in handles to maximize fit, control, and user ergonomics

Overview

Crescent Wiss® Utility Shears feature premium steel blades, precision-engineered with knife-like edges to deliver ten times the cutting power of standard shears. Their titanium blade coating is three times harder than steel for extra durability and longer edge life and their compact design is made for easy portability. A serrated bottom blade grips material for better control and cleaner cuts, while spring loaded design and optimized handle contact points improve comfort and reduce fatigue. A quick release ergonomic latch that locks the shears closed for transport and soft-grip TPR handles are added safety and comfort features. Crescent Wiss® Utility Shears are the perfect choice when you need exceptional cutting power in a compact tool.
