

Product information

Weller®

WP 200

Code No. : **T0052920099**

Power-Response Heating Technology

Soldering iron Set WP 200, 200 W, 24 V with safety rest WDH 31 and soldering tip XHT D

High Power soldering iron. Ideal for applications with a high temperature demand e.g. LED backpanels or HF shieldings.

Technical data

Voltage (heater):	24 V
Heating output:	200 W
Heat-up time:	approx. 18 s 50°C - 350°C (120°F - 660°F)
Temperature range:	50°C - 450°C (120°F - 840°F)
Tip type:	XHT series
Connectable to:	WD3M, WD 3M, WR2

Power-Response Heating Technology

- Beneficial soldering tip prices
- Max. heating transfer
- Soldering tip in optimized sensor position
- Fast reaction time

Due to an optimized sensor position a high performance is given.
