- Stainless screwdriver for slotted and cross-recess screws, Pozidriv
- Multi-component Kraftform handle for fast and ergonomic screwdriving
- Handle markings simplify finding and sorting of tools
- Hexagonal anti-roll feature against rolling away
- Lasertip tip, stainless to prevent extraneous rust

High quality Kraftform Plus screwdriver set out of stainless steel. The stainless tools from Wera are vacuum ice-hardened and have the hardness and strength needed for screw connections. They can be used for industrial application without hesitation. The Lasertip tip literally bites into the head of the screw and thereby prevents any slipping out of the screw head. Multi-component Kraftform handle for fast and low-fatigue working. The hexagonal anti-roll feature prevents any bothersome rolling away at the workplace. Handle markings for simplified finding and sorting of the tools. Includes a practical rack for tidy storage of the screwdrivers.
