---

## Key Features

---

- Compatible Side Panels for NVIDIA® Jetson Nano™
- 1mm Acrylic sheet with the colour black
- Specific Sets of Standoffs for NVIDIA® Jetson Nano™

This is the compatible Acrylic side panels of [re\\_computer case](#). You can easily set up a complete re\_computer case appearance for both of NVIDIA Jetson Nano [B01](#) and [A02](#) versions using the side panels. It is made of 1mm Acrylic sheet with the colour black, which suits the appearance of re\_computer case.

When installing these SBCs, please follow the instruction below and use the required screws and standoffs.

We also prepared specific side panels for other popular SBCs. Please check:

At Seeed, you can also design your solution all in one page where you choose the desired SBC, any compatible mission board (HATs, expansions) that you want, I/O modules, and nicely place them in the suitable enclosures/cases such as [re\\_computer case](#). Rest assured, as we have tested full compatibility for all of the products listed on the page. Try it now [here](#) and save you time to find hardware compatibility!
