

Mounting kit for Pimoroni's adjustable Pi Camera. Little screws attach the Pi Camera solidly and the design allows for multiple positions. There's also a 1/4" hole that you can use to attach the camera to a standard camera tripod mount.

This mount works with the Pi Camera version 1 (5 Megapixel) and version 2 (8 Megapixel) both plain & NoIR.

Comes with a two-piece plastic bracket and 5 mini screws + 7 hexnuts. Pi Camera is not included. Tripod not included. 1/4"-20 hexnut is not included.

Dimensions: 40.29mm / 1.58" x 28.73mm / 1.13" x 23.8mm / 0.9"
