Unit: Set

Meets your requirements: A variably settable torque covers a large application area.

Simplifies your work: All tools securely arranged in a robust, orderly bag.

Lowers your costs: The correct torque protects you from warranty claims.

Facilitates handling: Effortless and comfortable transmission of high torques thanks to T-handle with ComfortGrip.

Increases your efficiency: The correct torque avoids damaging material and no follow-up work is necessary.

Great force is required to fasten screws at a specific torque value over 5 Nm with a normal torque screwdriver. Using a torque screwdriver with the TorqueVario®-S Tplus T-handle makes things much easier. Thanks to its integrated numeric scale and the supplied adjusting tool, variable torque settings can be made, thus covering a wide application field. *A clearly audible and tactile signal is emitted when triggering the set torque value, guaranteeing process-safe work, protecting material and eliminating follow-up work. The integrated friction clutch prevents the user from exceeding the required torque value. With a release accuracy of +/- 6%, the torque tool complies with EN ISO 6789 requirements. The comfortable T-handle with soft zones ensures optimum torque transmission. In addition to the torque T-handle, the set also includes 1/4" and 3/8" internal square adapter blades, a bit holder and six single bits. The TorqueVario®-S Tplus is also compatible with Wiha interchangeable blades for torque screwdrivers with a T-handle (series 2899). All tools in the set are safely stored neatly away in a robust, clearly organised box.

Standards: DIN EN ISO 6789.

Application: For controlled fastening with the pre-set torque. Ideal for applying high torques.

Lieferumfang

- 1 x Adapter blade for torque screwdriver with T-handle 1/4" (28756) 120 mm
- 1 x Adapter blade for torque screwdriver with T-handle 3/8" (28757) 120 mm
- 1 x Adjusting tool for torque screwdriver with T-handle (28691) 146 mm
- 1 x Bit holder for torque screwdriver with T-handle (28758) 1/4 mm x 125 mm
- 1 x Bit Standard 25 mm Hexagon 1/4" (01706) 4,0
- 1 x Bit Standard 25 mm Hexagon 1/4" (01707) 5,0
- 1 x Bit Standard 25 mm Hexagon 1/4" (01708) 6,0
- 1 x Bit Standard 25 mm TORX® 1/4" (01719) T25
- 1 x Bit Standard 25 mm TORX® 1/4" (01721) T30
- 1 x Bit Standard 25 mm TORX® 1/4" (01722) T40
- 1 x Torque screwdriver with T-handle TorqueVario®-S T Variable torque limit settings (29233) 5-14 Nm, 6 mm

Weight 1.442 g

Serie 2893 S01

Anwendungsszenarien For controlled fastening with the pre-set torque. Ideal for applying high torques.
