Wiha magazine bit holders are ideally suited for those who require a variety of different screwdrivers but want to save space or weight.

Ergonomically designed handles of soft, skin-friendly material guarantee comfortable handling. High-quality bits can be cleverly stored in the handle.

The solution for bit storage and bit removal in the Wiha magazine bit holder 3809 received the coveted "red dot design award: best of the best."

The "telescopic" version of the magazine bit holder can be adapted to the space constraints using the length-adjustable bit adapter.

Small format – major professional quality: The short design of the Wiha Stubby 3801 magazine bit holder enables comfortable working in tight spaces.
