

Screwdrivers

We have the know-how at the tip of our fingers.

Unlike many standard tools available on the market, Wiha screwdrivers are optimally designed for users' requirements. Thanks to Wiha's screwdriver handle size concept, four handle sizes and lengths, optimally adapted to their specific fastening or work task, ensure health-friendly work practices. With SoftFinish, Wiha became the world's first and only hand tool manufacturer to have products honoured with the renowned AGR quality seal - a seal of approval accepted by medical professionals and officially recommended by doctors and therapists. Wiha screwdrivers featuring SoftFinish are available for dry applications, damp and oily applications and as VDE-certified, insulated screwdrivers for use when working on live parts..

Wiha is the world's first hand tool manufacturer to receive AGR (Association for healthy backs) certification for its Inomic pliers and ergonomic screwdriver handle size concept, a seal of approval accepted by medical professionals and officially recommended by doctors and physiotherapists.
