**Article No.:** 42069

**GTIN:** 4010995420697

**Unit:** Set

**Meets your requirements:** Case: robust, large, stable and secure with lid brake.

**Lowers your costs:** The correct torque protects material from damage and ensures no additional follow-up work.

**Increases your safety:** Internationally award-winning VDE-insulated tools, each individually tested at 10,000 V AC and approved for use at 1,000 V AC. Gas-filled shock absorbers hold the lid in all positions and reduce the risk of injury when closing.

**Protects your health:** Wiha pliers require less force and reduce pressure on wrists. Ergonomic handle design makes work easier and prevents occupational illnesses. Trolley with stable in-line rollers allow easy and stress-free transportation of tools to the work area.

**Increases your efficiency:** A comprehensive tool assortment, always providing you with the right tool when it is needed. The design and function of the tool trays guarantee quick and easy access to tools.

**Increases your flexibility:** Ample space for additional tools and lots of storage for small parts and machines.

**Conventional toolboxes are often not sufficiently robust, have little storage space and the tools are difficult to remove. The development of Wiha's 115-piece Electrician's Competence Case XXL II has put an end to such problems once and for all. The tool inserts in this case are designed to help you work efficiently by ensuring that all tools can be removed quickly and easily. Thanks to extensive equipment, electricians have the right utensil for every application, such as the LiftUp electric magazine bit holder, a torque screwdriver set, fully insulated screwdrivers from the Wiha Slim line or TriCut installation pliers. The large storage space in the tool case also contains a spirit level specially designed for electricians. Made of robust polypropylene, the case also features gas-filled shock absorbers, which hold the lid in different positions, preventing it from closing automatically and causing injury.**

**Application:** Suitable for working on live parts up to 1,000 V AC. The complete kit for professional electricians out on jobs.
