

Cosmos LED-R, With HF-sensor,4000K, Transpar. IP44

Item: 7099434

MALMBERGS

Product information

Range of uses

General lighting for indoor and outdoor use. With or without HF sensor.

Mounting

Surface mounting.

Connection

Fast connection terminal block 3x2.5 mm². Cable inlet through 2x Ø 19 mm holes at the top of the fitting and 2x Ø 19 mm knockout holes, one on each end. Supplied with 4 membrane nipples.

Description

White body made of steel plate and end plates made of polycarbonate. Transparent diffuser made of acrylic. Including LED tubes. The HF Sensor is mounted hidden beneath the diffuser and responds to any movement, regardless of the heat fluctuations around the sensor and triggers the light to switch on and turn off after the preset time.

Adjustable setting of detection area, time setting and lux setting. The lux setting can be disconnected so that the sensor reacts to movement only. Note: Intended for LED tubes only (Retrofit).
