

# Raspberry Pi

## RPI MUSB USBC WT

This adapter gives you the possibility to turn a normal USB power supply with a micro-B plug into a USB-Type C power supply.

### Technical data

- Connection: USB micro-B to USB-C
- Colour: white

**Important note** Please note that most USB power supplies with microUSB provide a maximum of 2.1 A or 2.5 A, while the new Raspberry Pi 4 requires up to 3 A under full load.
