Bondhus Tamper Resistant Tools can be used to turn both tamper resistant and standard hex and TORX® fasteners.

Bondhus chamfers every Hex and TORX® tool we make. This process eliminates burrs and imperfections in the tool's tip that can prevent the tool from fitting properly or seating fully within the screw head.

**BONDHUS**  
**LIFETIME WARRANTY**  
If any Bondhus® tool breaks or fails to meet your expectations in any way, simply return it. We will replace it free of charge.

High Torque Steel:

Up to 20% stronger, with more torque and twice the wear resistance of standard grades of steel.

### FINISH OPTIONS:

Corrosion-resistant finish:

Environmentally safe, provides better tool grip, resists solvents and is 5 times more corrosion resistant than competitor finishes.

Every Bondhus tool is designed and machined to achieve an optimal fit between tool and fastener. Tools insert quickly and easily into screw head and fit snug to generate greater torque and minimize slippage and stripping.
