## Product Information

### General notes

The series 99 contains indicators and illuminated pushbuttons with maintained and momentary action with one or two contacts which may be either normally open or normally closed or a combination of the two. The illuminated pushbuttons are equipped with the low-level switching system.

The series 99 PCB keylock switch with a spacing of 19.05 mm completes the existing range of indicators and illuminated pushbuttons. The PCB keylock switch is available with two and three positions, with maintained action, and with either one or two normally open contacts as well as with one normally open and one normally closed one.

### Mounting

The illuminated pushbuttons of series 99 can be soldered to a printed circuit board. The contact layout conforms to the module of 2.54 mm (1/10 "). A centering pin ensures dimensionally exact mounting in rows or blocks. With an M1.2 screw the pushbuttons can also be fixed to a printed circuit board. (This screw must be ordered separately.) The pushbuttons can be joined together easily with a coupling piece to form rows or blocks. The layout of the PCB keylock switch conforms to the module of 2.54 mm (1/10 "). Two centering pins ensure a dimensionally exact mounting. The contact layout corresponds to that of series 99 switches.

### Cleaning of soldered PCB

In many cases the boards are cleaned following mechanical soldering. In this case it is essential to prevent the cleaning fluid containing dirt, grease and flux from entering the switch.

### Lenses

The lens consists of a bezel, a marking plate and a transparent lens plate, which may be either flush or concave.

### Marking

For further information about engraving, hot stamping and film inserts see part Marking.

### Illumination

Illumination of the different coloured lenses is by lamps Bi-Pin T1 longlife (6 ... 36 V) or LED Bi-Pin T1.

Luminosity and wave length scattering caused by the technology used in the LED manufacturing processes may lead to visual differences in our products.

### Position indication

The status of a maintained action switch can be determined by the position of the lens.

### Keylock switch

Standard lock (Index D). 10 different locks with standard nos. 311 ... 320. If the lock number is not specified, we supply no. 311. Additional 125 locks, no. 321 ... 445, are available on request. Master keys for locks no. 311 ... 445 may be ordered by quoting no. 31-989.300. Two keys are supplied with each keylock switch. Spare keys for standard DOM locks may be ordered by quoting no. 31-989 (please state the lock number).

## Specimen order

### Indicator :

- Indicator actuator single, 18.6 x 18.6 mm 99-050.807

### Essential accessories :

- Lens single complete, plastic colourless transparent flush, 18.6 x 18.6 mm 99-901.9  
 - Single-LED T1 Bi-Pin, 2.2 VDC, 20 mA, yellow 10-2602.3174C

*We reserve the right to modify technical data  
 All dimensions in mm*

## Pushbutton illuminative

- 1 Lens plate
- 2 Marking plate
- 3 Lens bezel
- 4 Switching element

## Indicator actuator single

### Essential Accessories:

-  Lens single, complete page 40
-  Single-LED page 43

## Assembling

### Coupling section

for mounting pushbuttons in rows or blocks

|                                 | Typ-Nr.       |  |
|---------------------------------|---------------|---|
| <b>Coupling section</b><br>grey | <b>99-910</b> | 0.001   |

### Fixing screw

|   | Typ-Nr.       |  |
|---|---------------|---|
| <b>Fixing screw</b><br>M 1.2 x 5 mm (DIN) | <b>99-990</b> | 0.001   |

### Lamp remover

|                     | Typ-Nr.       |  |
|---------------------|---------------|---|
| <b>Lamp remover</b> | <b>11-906</b> | 0.003   |

CAUTION

A switching process might be released when replacing the Lamp/LED !

## Low level switching element

### Switching system

This low-level switching system was designed for switching low powers in electronic circuits. The switching system assures reliable switching of loads.

Single-break momentary contact, as normally open or normally closed with 4 independent points of contact.

Special features are the long life, extremely short rebound time and stable contact resistance.

Contact combinations: 1 normally open contact, 2 normally open contacts, 1 normally closed/1 normally open contact, 1 normally closed contact

### Material

#### Material of contact

Gold plated

#### Switching element

Polycarbonate (PC)

### Mechanical characteristics

#### Rebound time

≤100 μs typical

#### Mechanical lifetime

|                        |                      |
|------------------------|----------------------|
| Illuminated pushbutton | 5 million operations |
| PCB keylock switch     | 50 000 operations    |

### Electrical characteristics

#### Contact resistance

Starting value (initial) ≤50 mΩ as per IEC 60512-2-2b

#### Isolation resistance

10<sup>12</sup> Ω between contacts at 100 VDC, as per IEC 60512-2-3a

#### Switch rating

min. 100 μVDC/AC, 10 μA  
max. 42 VDC/AC, 100 mA

#### Electric strength

2500 VAC, 50 Hz, 1 min. between all terminals and earth, as per IEC 60512-2-11

### Environmental conditions

#### Storage temperature

-40 °C ... +85 °C

#### Service temperature

-25 °C ... +55 °C

for indicators and illuminated pushbuttons mounted as a block, make sure the heat can escape freely

#### Shock resistance

(single impacts, semi-sinusoidal)

15 g for 11 ms as per IEC 6068-2-27

## Actuator

### Material

#### Lens plate

Polymethylmethacrylate (PMMA), heat-resistant

#### Lens bezel

Polycarbonate (PC), heat-resistant

### Mechanical characteristics

#### Actuating torque

4.7 Ncm ... 6.0 Ncm (measured at the key)

#### Actuating force

|                                  |            |
|----------------------------------|------------|
| Pushbutton with tactile point    | 2.0 ±0.3 N |
| Pushbutton without tactile point | 1.3 ±0.4 N |

#### Actuating travel

Lead distance NC contact 1.1 ±0.2 mm  
Lead distance NO contact 2.1 ±0.2 mm  
total distance 3.6 ±0.2 mm

#### Angle of rotation for print keylock switch

Keylock switch with 2 positions 90°

Keylock switch with 3 positions 2 x 90°

#### Mechanical lifetime

|                        |                      |
|------------------------|----------------------|
| Illuminated pushbutton | 5 million operations |
| PCB keylock switch     | 50 000 operations    |

### Electrical characteristics

#### Electrostatic discharge (ESD)

10 kV

### Environmental conditions

#### Storage temperature

-40 °C ... +85 °C

#### Service temperature

-25 °C ... +55 °C

for indicators and illuminated pushbuttons mounted as a block, make sure the heat can escape freely

#### Protection degree

frontside IP 40, PCB keylock switch, illuminated pushbutton

## General notes

### 1. Engraving

In addition to the most commonly used world languages, in DIN 1451-3 close spacing, other typefaces are available as Scandinavian, Slavic, Greek, Russian and Polish. Unless requested otherwise by customer, the lettering on white and black marking plates will be in black or white. Standard height of letters is 2 mm. If the height is not specified, we will supply 2 mm engraved letters.

### 2. Hot stamping

For larger series it is worth considering markings by means of hot stamping or laser engraving. We will be pleased to advise you. For letters and figures, typefaces with 2.5 mm, 3 mm and 4 mm are available.

### 3. Film inserts

Instead of using engraving the lenses can be fitted with transparent film inserts, possibly backed by a colour foil placed between the lens plate and the marking plate, as an alternative. The film thickness is 0.2 mm. Maximum film size: for single pushbutton 16 x 16 mm for double pushbutton 16 x 34.7 mm for triple pushbutton 16 x 53.8 mm.

## Lenses for Indicators | Illuminated pushbuttons

All dimensions in mm

| Front size  | Film insert max. size | Height of letters h | Number of lines | Number of (target value) capital letters per line | Number of (target value) small letters per line | Image |
|-------------|-----------------------|---------------------|-----------------|---|---|-------|
| 18.6 x 18.6 | 16 x 16               | 2                   | 4               | 7   | 8   | B1    |
|             |                       | 3                   | 3               | 6   | 7   | B1    |
|             |                       | 4                   | 2               | 4   | 5   | B1    |
|             |                       | 5                   | 2               | 3   | 4   | B1    |
|             |                       | 6                   | 1               | 3   | 4   | B1    |
|             |                       | 8                   | 1               | 2   | 3   | B1    |
