# Meet the Galaxy Book Pro

The Galaxy Book Pro has everything you need for seamless hybrid working. Together with thin and super-light hardware, it has multiple input ports and connects easily with the Samsung Galaxy ecosystem of products. Switch from laptop to phone without hassle and boost your productivity.

We've also partnered with Microsoft to deliver a suite of outstanding applications that give you the power to do more. The Galaxy Book Pro is built on Windows 10 Pro, giving you comprehensive security and business-class tools that sync across all your devices.

Its innovative features include an immersive, cinematic full HD AMOLED touch display, extra-responsive keys, long-lasting battery, superfast Wi-Fi 6E connectivity and intelligent video functions like AI noise remover. Enjoy true mobility with performance and power that won't let you down.

# SAMSUNG

## Our super-thin, super-light laptop.

The Galaxy Book Pro takes the mobility of portable computing to the next level—as thin as a laptop with the power of a PC. Available in two sizes, the 13.3" is just 11.2mm when closed and weighs just under a kilo, while the 15.6" is only 11.7mm when closed and weighs just over a kilo—ideal for any business on the move.

## Always protected to take the next step.

With a hybrid workforce, security is top of the agenda for many businesses. Our Samsung Galaxy Books give you enterprise-grade security at the heart with a Windows 10 Pro operating system which includes built-in protections for your data, equipment, and people, securing business information and personal identities even on lost or stolen devices. Business essentials like firewall, secure boot, and file-level information-loss protection come as standard on every device.

Windows Hello uses your fingerprint, or PIN instead of a password\* to unlock your device/apps. Next Generation Windows Defender Anti-virus combines machine learning, big-data analysis, in-depth threat resistance research and the Microsoft cloud infrastructure to protect all the devices in your business.

Plus, with Windows BitLocker\*\* Drive Encryption, you get a data protection feature that combats threats of data theft or exposure from lost or stolen devices. BitLocker provides the most protection when used with a Trusted Platform Module (TPM) which is what our new windows devices have.

## Work smarter, not harder.

As combined business tools, our software and Galaxy Book range deliver true productivity for your workforce.

Samsung DeX allows you to connect your compatible Galaxy smartphone or tablet and use your device on your Windows desktop. Samsung Notes enables your ideas to be shared seamlessly via auto-syncing across your devices with Samsung Cloud. Quickshare allows users to send files instantly to nearby Samsung devices—no more connecting to servers to share your work with colleagues.

Link to Windows means you can have your favourite mobile apps like messages appear directly on your Galaxy Book—no need to remove your phone from your pocket. And, with Smart Switch, setting up your new laptop couldn't be easier as you can quickly and securely transfer files and settings from your old device.

\*For Windows Hello with biometrics specialised hardware, a fingerprint reader, illuminated IR sensor, or other biometric sensor is required. Hardware-based protection of the Windows Hello credential/keys requires TPM 1.2 or greater. If no TPM exists or is configured, credentials/keys protection will be software-based.

\*\*Requires TPM 1.2 or greater for TPM based key protection.

## Stay focused on video calls.

Avoid unnecessary distractions during your video calls. Intelligent features such as AI noise remover takes care of background noise like barking dogs. With the Galaxy Book Pro, you're in complete control. Not ready to face the world? Use beauty camera filter, or dedicated keys for privacy, with camera off and mic mute buttons.

## Connect to everything.

With increased mobility laptops need to be able to connect to more, both hardware and networks. The Galaxy Book Pro comes equipped with a wide range of I/O ports to connect a multitude of devices, including HDMI port, USB Type-C, microSD and USB 3.2.

## The freedom to connect.

Get stronger wireless connections. The Galaxy Book Pro has WIFI 6E built in, giving you 3x faster wireless speeds. So, you can browse the web, multi-stream a wide range of content, dial in for video calls, or stay in touch with colleagues through highly reliable connections and 2.4Gbps transfer speeds.

## Long-lasting battery for optimal performance.

With the increased time away from the office there is a need for a laptop that can last all day long. Galaxy Book Pro is equipped with long-lasting 63Wh (13") and 68Wh (15") capacity battery to keep you going.

## Technical Specification

### Galaxy Book Pro 13.3"

<b>Dimensions</b>	304.4 x 199.8 x 11.2mm
<b>Weight</b>	868g
<b>Build</b>	Aluminium
<b>Display</b>	13.3" FHD (1920 x 1080) AMOLED
<b>CPU</b>	Intel® Core™ i5-1135G7
<b>Graphics</b>	Intel® Iris® Xe
<b>Memory</b>	8GB
<b>Storage</b>	256GB   512GB NVMe SSD + microSD
<b>Connectivity</b>	802.11 ax 2x2 (Wi-Fi 6E)
<b>Camera</b>	720p User Facing
<b>Speaker</b>	2W x 2
<b>Security</b>	Fingerprint, dTPM
<b>Battery</b>	63Wh (Typical)
<b>Ports</b>	1x USB-C 1x Thunderbolt 4 1x USB 3.2 HDMI microSD Multi-media Card Reader Headphone out/Mic-in Combo

### Galaxy Book Pro 15.6"

<b>Dimensions</b>	355.4 x 225.8 x 11.7mm
<b>Weight</b>	1.05kg
<b>Build</b>	Aluminium
<b>Display</b>	15.6" FHD (1920 x 1080) AMOLED
<b>CPU</b>	Intel® Core™ i5-1135G7   Intel® Core™ i7-1165G7
<b>Graphics</b>	Intel® Iris® Xe
<b>Memory</b>	8GB   16GB (LPDDR4x)
<b>Storage</b>	512GB NVMe SSD + microSD + 1x SSD slot
<b>Connectivity</b>	802.11 ax 2x2 (Wi-Fi 6E)
<b>Camera</b>	720p User Facing
<b>Speaker</b>	1.5W x 2
<b>Security</b>	Fingerprint, dTPM
<b>Battery</b>	68Wh (Typical)
<b>Ports</b>	1x USB-C 1x Thunderbolt 4 1x USB 3.2 HDMI microSD Multi-media Card Reader Headphone out/Mic-in Combo
