Series Copy

Let somebody else do the headwork.

The „H“ in H-Series stands for „head“. Because with the headlamps of the H-Series everything revolves around the most important part of the body - the head. The intuitive handling, ergonomic design and the brightest LED light of this first-class headlamp ensure that you'll see more than just the light. And you can also fully rely on us for servicing.

Product Copy

The perfect light for everyday use.

With this headlamp you always have your hands free for your project, your hobby or just in case. Because the H8R adjusts perfectly to your head, thanks to its ergonomic design and is easy to handle. That way you always have the best view and even better: the red backlight makes sure you're being seen by everyone else. And one more highlight: you can simply charge it anywhere in the world via USB 3.0 – a great feature especially on the road.

Footnotes

¹Measured values in accordance with ANSI FL1 in the respective settings. If no setting is expressly stated, the values for luminous flux (lumens/lm) and lighting range (meters/m) refer to measurements on the brightest setting, and the values for battery life (hours/hrs) refer to measurements on the lowest setting. A boost function (if available) can be used several times, but only for short periods of time. If the light has different energy modes, the „energy saving mode“ is the basis for measurement.

²Calculated value of capacity in watt-hours (Wh). This applies to the delivery state of the battery(-ies) contained in the respective item, or if it is a light with (a) rechargeable battery(-ies), then to the item's rechargeable battery(-ies) when fully charged.
