

Pixhawk ProfiCNC Mini Carrier Board

Item number: MBS-ENTB-33

EAN: 0094393522485

ProfiCNC Pixhawk Mini Carrier Board

- Pixhawk 2.1 Cube compatible
- Redundant Power Management
- Voltage protection

The Pixhawk Mini Carrier Board by ProfiCNC / Hex Aero has the standardized DF17 Connector and can therefore be used with the Pixhawk Cube. Due to the small dimensions of the carrier board it is very suitable for unmanned planes / drones.

Functionality

- Dual Power Input (automatically switches between power when one of them fails)
- Power Distribution (Misst den Strom eines jeden Connectors um einer Fehlfunktion durch Überbelastung vorzubeugen)
- Voltage protection (over or under voltage protection)

Delivery content

1 x Mini Carrier Board

The Pixhawk 2.1 Cube is not part of the delivery content but can be bought in addition.
