

ICY BOX IB-AC6405-C USB Type-C™ Hub

A new Hub

IB-AC6405-C is an independent USB 3.0 HUB with Type-C™ connector to host PC. The slim design and integrated USB 3.0 cable makes it perfect for Mac or PC-Notebooks on the go. You can expand four USB 3.0 Type-A interfaces to your PC or Notebook. A 5 V DC interface is provided, so that you can connect an optional power supply (5 V/2 A, not included) for external USB-devices with high power consumption.

The new standard

USB 3.0 Type-C ports have two distinct advantages over the existing forms. They are smaller and therefore ideal for thin laptops and mobile devices and it is no longer necessary to insert the connector in a particular orientation. It always fits and thus saves the user a lot of small annoyances when connecting devices.

No more slots?

If you want to use your existing USB 3.0 devices on the latest mobile devices and laptops with a USB Type-C port this compact hub is a quick help. It uses a single USB 3.0 Type-C port on its own and creates four additional Type-A ports. Problem solved!

ICY BOX IB-AC6405-C USB Type-C™ Hub

Key Features

- 4x USB 3.0 Type-A hub
- Integrated USB Type-C™ cable
- USB 3.0 Type-C™ data transfer up to 5 Gbit/s
