

Speaker Wall Mount | Sonos® PLAY:5-Gen2™ | Tilttable and Rotatable | Max 7 kg

General information

This adjustable Speaker Wall Mount for Sonos® Play:5-Gen2™ lets you position your speaker for the optimum sound in your room.

Strong and sturdy but discrete

Strong enough to carry a speaker with a maximum weight of 7 kg, this steel and plastic wall mount offers all the support you need.

A handy cable tidy ensures the connecting wires are all kept neatly organised.

Fully adjustable

The wall mount can rotate to a maximum angle of 60°, and tilt from 0° to -15°, to ensure the sound is directed exactly where you want it.

Easy to install

The mount couldn't be easier and quicker to install and will provide years of listening pleasure after.

Features

- Compatible with Sonos® Play:5-Gen2™
- Rotate and tilt function - to create the perfect angle
- Keyhole pattern - for an easy installation
- Cable management - to keep everything well organized
