

PeakTech® 3204 PROD-ID: P 3204

[BACK](#)

Analog Galvanometer ~ +/- 50µA / 5 mA/100 mV DC

This new galvanometer moves the pointer relative to the direct current between the positive and negative side of the scale and thus can show the current flow.

- Analog mirror scale
- DC measurements after principle of Galvani
- Safety: EN-61010-1; CAT III 600 V
- Accessories: Carrying case, Test Leads and User Manual
