Current Clamp Adapter for Multimeter ~ 1000 A AC/DC ~ with 4mm Plugs

This clampadapter is transducer, which will allow your multimeter to measure electrical current up to 1000 A AC/DC with a frequency response up to 400 Hz. When measuring current with this clampadapter, there is no need to break a circuit or to affect the insulation. This adaptor with a design of finger guard, which ensures user operating the clamps under a safe situation. For conductor diameter up to 57 mm, an output of 1 mV/A (1000:1) and an input impedance of 1 MΩ.

- Safety: EN 61010-1, CAT II 1000 V
- Accessories: Battery and manual

DCA	200/1000 A; ± 1,5% + 2 A - 1 mV/A
ACA	200/1000 A; ± 1,5% + 2 A - 1 mV/A
Operation voltage	9V-Battery
Dimensions (WxHxD)	100 x 240 x 43 mm
Weight	515 g
EAN-13	4250569401138
