

## V7 12.5" Privacy Filter for notebook - 16:9 Aspect Ratio

### PS12.5W9A2

SKU: J153749

V7 Privacy Filters are excellent for open, high-traffic environments or wherever on-screen data needs to be kept private. Screen data is visible only to persons directly in front of the monitor without blurring or distortion. The filter darkens on-screen information when viewed from the side. The high-gloss finish sharpens contrast and helps to protect fragile LCD screens from scratches and damage. V7 Privacy Filters are easy to attach and remove, and can be left in place even when your notebook computer is closed. Sizes are available to fit most laptop computers and desktop displays.

- V7 Privacy Filters block out the view from either side of your screen without blurring or distortion
- Filters keep confidential information private
- Blue Light protection
- V7 Privacy Filters are reversible. The matte side reduces glare (anti-glare) while the shiny side improves clarity and color.
- Also includes Microfiber Cleaning Cloth and Mounting Tabs.
