• You want to connect your graphics card with DisplayPort connector to a DVI monitor? Or a display device with VGA input? Or a TV with an HDMI connection? The solution is the VALUE Adapter Cable DisplayPort - VGA / DVI / HDMI

- Cable length: ca. 10 cm
- Maximum resolution: 3840x2160 @60Hz
- Adapter with DisplayPort connector and VGA, DVI and HDMI socket.

• Note: The DisplayPort adapter only works in one direction: the DisplayPort connector is only on the data source side can be used (eg graphics card) and only ONE single output is available (VGA or DVI or HDMI)

## What are the benefits of using Active adapters and converters?

Active products can have a huge advantage when working with long cable runs and video conversion applications. In terms of video converters, active units generally have hardware inside to improve your image.

### Technical specifications
