

Dell performance dock modul WD19DC with 240W power adapter EUR

dellstore.cz/en/dell-performance-dock-modul-wd19dc-with-240w-power-adapter-eur-452-bdpg-wd19dccblpa-450-akov-59mcf/zbozi199791.html

Detailed information

Accelerate your productivity

Swap swiftly: Switch out your module to convert to dual USB-C connectivity at a fraction of the cost without needing to replace the whole dock. Ideal for field replacements or connectivity upgrades.

Charge in an instant

Upgrading your power module lets you use Dell ExpressCharge to charge up to 80% in one hour*, making it the most efficient way to manage the workday.

Boost your day

Triple your power delivery and charge even faster with a connector that comes with a 240W power adapter and, when combined with a dock, delivers up to 210W of power.

Designed to adapt

Enhance your connections: Upgradeable dual USB-C connectivity makes it easier than ever to deliver power, data, audio and video in one convenient cable, no matter what system you use. Plus, with support for up to three displays, including a single 5K and dual 4K monitors, you can connect to everything you need.

Invest in your environment

Reduce waste while upgrading with power and connectivity modules made from 100% recycled plastic.

Information in a flash

With speeds of up to 10Gbps for faster data transfer, our innovative modules let you stay productive when your dock is plugged in to all your devices.

Adaptable to your workload

Conveniently choose between a single USB-C cable or dual USB-C functionality, a feature compatible with our Precision 7000 and 5000 workstations. Plus, with magnetically separable USB-C cables, it is easy to get the flexibility you need.
