HP's best-selling ZBook

Our powerhouse ZBook thrives with heavy workloads from rendering to engineering to simulation. With room to grow, it's the only machine you'll ever need.

HP recommends Windows 10 Pro for business

Full-throttle performance

- Get blazing-fast performance with the heaviest multi-app workloads. Boost your speed on single and multi-threaded apps with the high-performance multi-core Intel processor. Through it all, our cutting-edge thermal design keeps everything cool and quiet.

Ready to expand. No tools required.

- When your technology needs evolve, you can easily upgrade. Simply remove the back panel and switch out your memory or storage in seconds.

Industry-leading security

- Advanced security features come standard on every ZBook 15. System safeguards like HP Client Security Suite¹ and HP Sure Start² - the industry's first self-healing BIOS - mean your device is locked down tight, so your data and identity are too.
- Work anywhere without compromising on performance or security with Windows 10 Pro, powered by HP's collaboration and connectivity technology.³
- Accelerate your workflow. Power through projects with up to 128 GB RAM for fast rendering, editing and visual effects performance.⁴
- Take multitasking to the next level with the Intel® Core™ i9 processor designed to handle complex, multithreaded apps like Adobe Premier Pro, and with fast clock speeds you can boost your speed on single threaded apps like Autodesk 3ds Max.^{5,6}
- Run demanding professional apps with the newest generation Intel® Xeon® processors for powerful performance and productivity.⁷
- Render the most demanding projects and experience virtual immersion with the next generation of VR-ready NVIDIA Quadro® graphics.
- Strenuously tested to meet software certification and deliver superb performance with leading software providers, including Autodesk and Adobe.
- Bring your projects to life with one billion colors on the stunning 600 nit, 4K UHD HP DreamColor display. Maintain color accuracy with a built-in color calibration system.⁸
- Blitz through multiple tasks and ditch external drives with up to 6 TB storage. Get 4 TB local PCIe NVMe storage - up to 21x faster than standard HDD and 6x faster than SATA SSD.⁹
- Our ZBooks are designed to undergo extensive MIL-STD 810G testing.¹⁰
- Plug in to greater connectivity at your desktop with the HP Thunderbolt Dock for lightning-fast Thunderbolt™ 3 transfers and the flexibility to run up to two external 4K displays.^{11,12}
- Accidents happen - which is why we designed our keyboard with a drain hole, so minor spills flow out the bottom for easy cleanup.
- Easy-to-remove rear panel allows for future expansion via 3 (2x M.2, 1x 2.5) storage slots. 4 million separate custom configurations to choose from will meet the demands of engineers and designers to ensure extended device lifetime.
