

## Bradylink® Warning Post & Chain

Barricade potentially hazardous areas indoors or outdoors with portable plastic posts and chains. Their lightweight yet tough construction stands up to years of use in temporary or permanent applications.

The components of the posts and chains are made of polyethylene with the following features:

- **Non-conductive:** Can be safely used in electrically hazardous areas.
- **Built-in Ultraviolet Inhibitors:** Screen out the sun's rays to prevent colours from fading during outdoor use.
- **Light Weight:** chain is lighter than similar metal parts – chain weights 2.7 kg per 25 meters
- **Non-Rusting:** Unlike metal posts and chain Bradylink, plastic parts cannot rust.
- **Fillable Base:** Hollow base can be filled with water or sand for more stable application.
- **C-Hook:** Large C-Hook holds chain in place. Use open, or closed for greater security.

**Post Diameter:** 75 mm

**Base Dimensions:** 40 cm diameter

**Height:** 1.04 m.
