

# High Quality European Manufactured Lubrication Equipment

*New specification model!*

## 12851 - Two Hand Grease Gun

Two-hand grease gun, with ergonomic handles for 500g screw-in cartridges. The grease gun is suitable for supplying lubricant greases under pressure up to the viscosity class NLGI 2.

**Filling options:** 500gm Screw in Cartridge.

**Connection:** M10x1

**Note:** Operates with greases up to NLGI grade 2 at 20°C

**Max Delivery Pressure:** 400 bar

**Complete with:** M10x1 4-Jaw Precision Coupler and 300mm Flexible High Pressure Hose.

### 14601001 - Two Hand easyFILL Grease Gun

**New!**

**Filling options:** 400gm Cartridge.

**Connection:** 1/8BSP

**Note:** Operates with greases up to NLGI grade 2 at 10°C

**Max Delivery Pressure:** 400 bar

**Complete with:** 1/8BSP 4-Jaw Precision Coupler, 300mm Flexible High Pressure Hose and 10 follower plates.

### 14701002 - One Hand easyFILL Grease Gun

**New!**

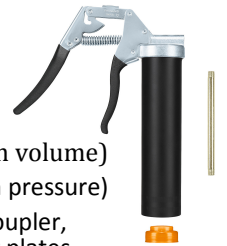

**Filling options:** 400gm Cartridge.

**Connection:** 1/8BSP

**Note:** Operates with greases up to NLGI grade 2 at 10°C

**Max Delivery Pressure:** 200 bar (Set on volume)  
300 bar (Set on pressure)

**Complete with:** 1/8BSP 4-Jaw Precision Coupler, 150mm straight rigid pipe and 10 follower plates.

### 12734804 - Standard Two Hand Grease Gun

**Filling options:** 400gm Cartridge / Bulk Filling.

**Connection:** 1/8BSP

**Filling Nipple:** M10x1

**Note:** Operates with greases up to NLGI grade 2 at 20°C

**Max Delivery Pressure:** 400 bar

**Complete with:** 1/8BSP 4-Jaw Coupler and 150mm angled rigid pipe.

### 12675 - Industrial Two Hand Grease Gun

**Filling options:** 400gm Cartridge / Bulk Filling.

**Connection:** M10x1

**Filling Nipple:** M10x1

**Note:** Operates with greases up to NLGI grade 2 at 20°C

**Max Delivery Pressure:** 400 bar

**Complete with:** M10x1 4-Jaw Coupler and 150mm angled rigid pipe.

### 14204212 - Professional Two Hand Grease Gun

**Filling options:** 400gm Cartridge / Bulk Filling.

**Connection:** 1/8BSP

**Filling Nipple:** M10x1

**Note:** Operates with greases up to NLGI grade 3 at 20°C

**Max Delivery Pressure:** 600 bar

**Complete with:** M10x1 4-Jaw Precision Coupler and 300mm Flexible High Pressure Hose.

### 12250 - One Hand Grease Gun

**Filling options:** 400gm Cartridge / Bulk Filling.

**Connection:** M10x1

**Filling Nipple:** M10x1

**Max Delivery Pressure:** 200 bar

**Complete with:** M10x1 4-Jaw Coupler and 150mm straight rigid pipe.

# Manual Barrel Pumps

**PRESSOL**

## 13012 - Steel Barrel Pump

**Delivery Rate approx:** 0.3 Litres per stroke / 16 Litres per minute.  
**Pumping Media:** Oils up to SAE90 (Also suitable for Diesel and Petrol)  
**Usage:** 60L / 200L and 220L Containers.  
**Discharge Spout:** Plastic  
**Length of suction tube:** 950mm.  
**Barrel Screw Coupling:** 2" male.

## 13055 - Rotary Barrel Pump

**Delivery Rate approx :** 0.25 Litres per rotation / 25 Litres per minute.  
**Pumping Media:** Oils up to SAE90 (Also suitable for Diesel and Petrol)  
**Usage:** 60L / 200L and 220L Containers.  
**Discharge Spout:** Steel  
**Length of suction tube:** 980mm.  
**Barrel Screw Coupling:** 2" male.

# Hydraulic Grease Nipples

## 16090 - 140 Piece Assorted Grease Nipple Set

**M6x1** (25 pieces straight, 10 pieces 45°, 10 pieces 90°)  
**M8x1** (25 pieces straight, 10 pieces 45°, 10 pieces 90°)  
**M10x1** (15 pieces straight, 5 pieces 45°, 5 pieces 90°)  
**1/8BSP** (15 pieces straight, 5 pieces 45°, 5 pieces 90°)

# Ancillary Parts

- Heavy duty precision coupler, suits all grease gun types
- Maintains a leak free HOLD even at extreme pressure
- Suitable for all commercially available hydraulic grease nipples (DIN & SAE specification)
- Detachable at high pressure
- Hands Free to operate grease gun
- Low wear - long service life
- Ease of removal - detached simply by tilting laterally 30° from grease nipple

## 12643 - Precision Coupler 4-Jaw Turned.

**For Grease Nipples:** Standard H1

**Grease Hose /Pipe Connection:** M10x1

**Material:** Galvanised Steel.

## 12743 - Precision Coupler 4-Jaw Turned.

**For Grease Nipples:** Standard H1

**Grease Hose /Pipe Connection:** 1/8BSP

**Material:** Galvanised Steel.
