

PRODUCT SPECIFICATION

Brand	C.K
Product Range	Hammers
Catalogue number	5701, 5702, 5703, 4229, 4203, 4232, 4219, 4218, 4234, 4204, 4208, 4227A & 4225
Date	01/04/2009

Range Description

A complete range of construction hammers.

Features

Single piece forged claw hammers (5701)

- Single piece forged steel shaft for maximum strength and performance
- Balanced weight design with energy saving claw geometry
- Shock absorbing contoured grip system for comfort and control

Fibreglass shafted claw hammers (5702)

- Strong fibreglass shaft for strength and performance
- Balanced weight design with energy saving claw geometry
- Shock absorbing contoured grip system for comfort and control

Single piece forged club hammer (5703)

- Single piece forged steel shaft for maximum strength and performance
- Shock absorbing contoured grip system for comfort and control

Steel claw hammer (4229)

- Drop forged high carbon steel head, hardened and tempered – strong and durable
- Steel shafted
- Highly coloured rubber grip – for visibility and comfort
- Coated and lacquered for protection

Cross pein hammer (4203)

- Drop forged high carbon steel head, hardened and tempered – strong and durable

Brick hammer (4232)

- Drop forged high carbon steel head, hardened and tempered – strong and durable
- Tough cutting edge with accurately ground and beveled face
- Chrome plated steel shaft
- Contoured comfort grip

Club hammer (4219)

- Drop forged high carbon steel head, hardened and tempered – strong and durable
- Ground and polished striking faces
- Genuine hickory handle

Club hammer (4219A)

- Drop forged high carbon steel head, hardened and tempered – strong and durable
- Ground and polished striking face
- Head black lacquered for protection
- Ash handle
- Head secured by a ring wedge

Sledge hammer (4218)

- Drop forged high carbon steel head, hardened and tempered – strong and durable
- Ground and polished striking face
- Vibration damping fiberglass shaft with shock absorbing rubber collar

Mortar pick (4234)

- Drop forged high carbon steel head, hardened and tempered – strong and durable
- Chrome plated steel shaft
- Contoured comfort grip
- Chisel and point combination ends

Joiners hammer (4204)

- Drop forged high carbon steel head, hardened and tempered – strong and durable
- Hickory shaft for strength

Engineers hammer (4208)

- Drop forged high carbon steel head, hardened and tempered – strong and durable
- Hickory shaft for strength

Engineers hammer (4227)

- Traditional German pattern
- Drop forged high carbon steel head, hardened and tempered – strong and durable
- Ash shaft for strength

Engineers hammer (4225)

- Traditional French pattern
- Drop forged high carbon steel head, hardened and tempered – strong and durable
- Ash shaft for strength

Technical product information	
Standards compliance	Where applicable, the hammers are produced generally in accordance with BS879
User health and safety information	Users and bystanders are advised to wear safety goggles
RoHS/WEEE compliance	This product range does not fall within the scope of RoHS or WEEE regulations
Material safety data	None applicable
Warranty	The hammers are guaranteed for life against imperfect materials or workmanship Damage caused through inappropriate use is not covered
Country of origin	4219A, 4225 & 4227A – Italy 4234 – Japan All others – Taiwan
