

# DTM13-12PA-12PB-R008

## PCB Header-24 Contact-2x12 DTM Receptacles-A and B

### 24 Pin DTM Series PCB Header

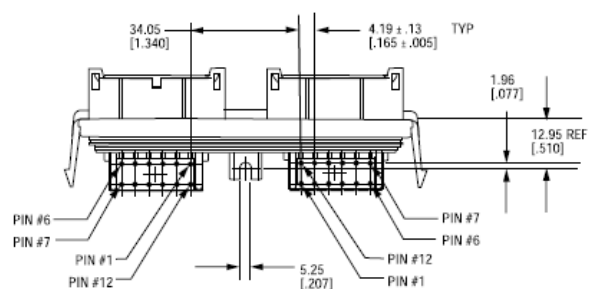

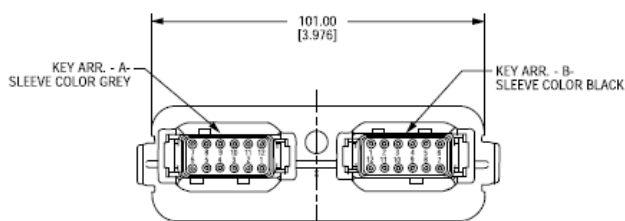

DTM13-12PA-12PB-R008 is a compact, 24 pin PCB enclosure header that accepts Deutsch DTM series 12 contact plugs. The header has 2 integral 12 contact receptacles, one each of A and B key styles, molded in to the face of the device. When assembled, the precision engineering and thick silicone gasket form a positive, weathertight seal that protects internal components against harsh environmental conditions.

### PCB Header Ordering Information

	Description	Header with Nickel Pins	Header with Gold Pins	Mating Plug(s)
	12 pin DTM Series header with size 20 contacts	DTM13-12PA-R008	DTM13-12PA-GR01	DTM06-12SA
	24 pin DTM Series header with size 20 contacts	DTM13-12PA-12PB-R008	DTM13-12PA-12PB-GR01	DTM06-12SA DTM06-12SB

### 24 WAY RECEPTACLE FOR DEUTSCH ENCLOSURE

The header will accommodate applications up to 24 contacts, and the keyed connectors provide a positive, consistent connection.

Precision manufacture and thick silicone seals provide a weathertight seal even under adverse conditions.

The DTM13-12PA-12PB-R008 header fits in a variety of enclosures for design and engineering flexibility.
