

COMPACT SWITCHING POWER SUPPLY 12VDC 500mA 6W

Features

- stabilised output, low ripple & noise
- short-circuit & overload protection
- very high efficiency & low energy consumption

Specifications

- supply voltage: 100~240VAC/50~60Hz
- power: 6W max.
- no load power consumption: -
- output voltage: 12VDC
- max. output current: 500mA
- plugs: -
- cable length: 1.7m
- connector: 2.1 x 5.5mm
- dimensions: -
- temperature: -30 °C to +50 °C
- output voltage tolerance: $\pm 10\%$
