

## YAGI RADIATORS

### Yagi Radiators

- The YAGI series consists of outdoor wall-mounted radiators which are developed to increase the signal quality in environments with bad coverage.
- ABY, ACY and AGY antennas have got high performance and good signal quality. They are recommended worldwide by leading suppliers of telecommunications equipment.
- Suitable for the summer house, caravan or boat.
- DC-grounding to protect subscriber equipment . Easy to install and align. Long service life.
- Ready to use. Supplied with wall and mast mount but without cable.

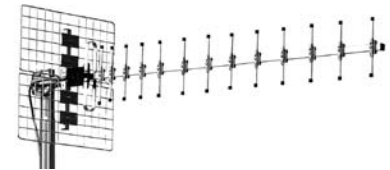

### Yagi Radiator

ABY7-10

ABY9-10

ACY15

Art.no	Type	Gain dB	Material	Frequency MHz	Length mm
ABY7-10	7 elements incl. wall and mast mount	9	Aluminium, stainless	380-500	750
ABY9-10	9 elements incl. wall and mast mount	11	Steel, Vistaflex	800-960	570
ACY7	7 elements incl. wall, mast mount and reflector	9	Aluminium, stainless	380-500	750
ACY15	15 elements incl wall, mast mount and reflector	15	Steel, Vistaflex	800-960	1000

### Yagi Radiator with RADOME

AGY10 / AGY11

WLD / WLA

80850

Art.no	Type	Gain dB	Material	Frequency MHz	Length mm
AGY10	Encapsulated in radome, FME/m	11,5	Grey ABS, aluminium	1710-1990	347
WLD	Encapsulated in radome, SMA/f	2/3	White ABS	890-960/1710-1800	200
WLA	Encapsulated in radome, FME/m	4		2400-2485	
AGY11	Encapsulated in radome, SMA/f	9		1700-2500	347
80850	Encapsulated in radome, N/f	10	Grey ABS	890-960/1700-1880/1710-2170	230
MEA-029	Directional GSM 900, incl. wallmount	3	PCB, FR-4	870-960	150x80
