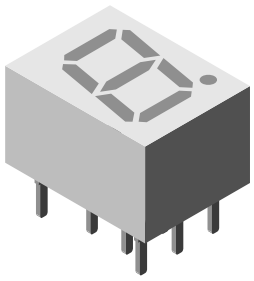
Standard 7- Segment Display 7 mm

Description

The TDS.11.. series are 7 mm character seven segment LED displays in a very compact package.

The displays are designed for a viewing distance up to 3 meters and available in four bright colors. The grey package surface and the evenly lighted untinted segments provide an optimum on-off contrast.

All displays are categorized in luminous intensity groups. That allows users to assemble displays with uniform appearence. Typical applications include instruments, panel meters, point-of-sale terminals and household equipment.



19235

Features

- Evenly lighted segments
- Grey package surface
- Untinted segments
- Luminous intensity categorized
- Yellow and green categorized for color
- Wide viewing angle
- Suitable for DC and high peak current
- Lead (Pb)-free component
- Component in accordance to RoHS 2002/95/EC and WEEE 2002/96/EC

Applications

- Panel meters
- Test- and measure- equipment
- Point-of-sale terminals
- Control units

Parts Table

Part	Color, Luminous Intensity	Circuitry
TDSO1150	Orange red	Common anode
TDSO1160	Orange red	Common cathode
TDSY1150	Yellow	Common anode
TDSG1150	Green	Common anode
TDSG1160	Green	Common cathode

Absolute Maximum Ratings

T_{amb} = 25 °C, unless otherwise specified

TDSO1150/1160 , TDSY1150 , TDSG1150/1160

Parameter	Test condition	Part	Symbol	Value	Unit
Reverse voltage per segment or DP			V_R	6	V
DC forward current per segment or DP		TDSO1150	I_F	17	mA
		TDSO1160	I_F	17	mA
		TDSY1150	I_F	17	mA
		TDSG1150	I_F	17	mA
		TDSG1160	I_F	17	mA
Surge forward current per segment or DP	$t_p \leq 10$ µs (non repetitive)	TDSO1150	I_{FSM}	0.15	A
		TDSO1160	I_{FSM}	0.15	A
		TDSY1150	I_{FSM}	0.15	A
		TDSG1150	I_{FSM}	0.15	A
		TDSG1160	I_{FSM}	0.15	A
Power dissipation	$T_{amb} \leq 45$ °C		P_V	400	mW
Junction temperature			T_j	100	°C
Operating temperature range			T_{amb}	- 40 to + 85	°C
Storage temperature range			T_{stg}	- 40 to + 85	°C
Soldering temperature	t ≤ 3 sec, 2 mm below seating plane		T_{sd}	260	°C
Thermal resistance LED junction/ambient			R_{thJA}	140	K/W

Optical and Electrical Characteristics

T_{amb} = 25 °C, unless otherwise specified

Orange red

Ozone Depleting Substances Policy Statement

It is the policy of Vishay Semiconductor GmbH to

1. Meet all present and future national and international statutory requirements.
2. Regularly and continuously improve the performance of our products, processes, distribution and operating systems with respect to their impact on the health and safety of our employees and the public, as well as their impact on the environment.

It is particular concern to control or eliminate releases of those substances into the atmosphere which are known as ozone depleting substances (ODSs).

The Montreal Protocol (1987) and its London Amendments (1990) intend to severely restrict the use of ODSs and forbid their use within the next ten years. Various national and international initiatives are pressing for an earlier ban on these substances.

Vishay Semiconductor GmbH has been able to use its policy of continuous improvements to eliminate the use of ODSs listed in the following documents.

1. Annex A, B and list of transitional substances of the Montreal Protocol and the London Amendments respectively
2. Class I and II ozone depleting substances in the Clean Air Act Amendments of 1990 by the Environmental Protection Agency (EPA) in the USA
3. Council Decision 88/540/EEC and 91/690/EEC Annex A, B and C (transitional substances) respectively.

Vishay Semiconductor GmbH can certify that our semiconductors are not manufactured with ozone depleting substances and do not contain such substances.

Vishay Semiconductor GmbH, P.O.B. 3535, D-74025 Heilbronn, Germany
